Education

Southern University of Science and Technology (SUSTech) — Expected Jun 2028

B.Eng. in Computer Science and Technology — Turing Class (Honors Program) — *Shenzhen, China*

Academic-year GPA (2025–2026): 3.86/4.00 | Cumulative GPA: 3.65/4.00
Comprehensive student evaluation: Top 10% (2025–2026, Zhiren College) | **Class President**, 2024 CSE Turing Class
Honors Coursework: Discrete Mathematics; Data Structures and Algorithm Analysis; Algorithm Design and Analysis; Principles of Database Systems; Artificial Intelligence.
Other Completed Coursework: Computer Organization; **Computer Vision (96/100)**; Natural Language Processing; Digital Logic; Introduction to Mathematical Logic; Introduction to Computer Programming; Computational Ethics; Group Projects I.
In Progress: Operating Systems (Honors); Compiler Principles; Computer Networks; Advanced Computer Programming; Probability and Statistics for Engineering.

Lab: **Advanced Intelligent Mobile Systems (AIMS) Lab**, SUSTech
Advisors: **Jin Zhang** and **Linshan Jiang**, Department of Computer Science and Engineering

Publications & Manuscripts

Yuxuan Hou, Di Yu, Linshan Jiang, and Jin Zhang. *Understanding Spike Encoding across IoT Sensing Modalities: An Empirical Study*.
Manuscript submitted to **SenSys 2027**.

Yuxuan Hou and Linshan Jiang. *LADS: Lease-Aware Delivery Scheduling of Tool Results for Language Model Agents*.
Manuscript submitted to **The Web Conference (WWW) 2027**; arXiv submission awaiting announcement.

Yuxuan Hou, Jiao Li, Linshan Jiang, and Jin Zhang. *Oto-Meal: Earable Sensing with PPG and IMU for Personalized Meal Awareness*.
WellComp 2026 (UbiComp/ISWC 2026 Workshop) — Computing for Well-being.
Accepted and presented, October 2026; forthcoming in *UbiComp Companion '26*. DOI: 10.1145/3798063.3841767. arXiv:2608.16678.

Research Experience

Oto-Meal: Earable Sensing with PPG and IMU for Personalized Meal Awareness — Sep 2025–Present

Project Lead & Primary Developer — *Wearable sensing*

First-author paper accepted to and presented at **WellComp 2026 (UbiComp/ISWC 2026 Workshop)**.
Project Lead — 2026 National Undergraduate Innovation and Entrepreneurship Training Program (**National Level**; CNY 25,000)
Project Lead — 2026 SUSTech "Climbing Program" Project (CNY 15,000; completed)

- Built an audio- and image-free earable prototype using photoplethysmography (PPG) and inertial sensing; evaluated a pooled neural classifier separately from within-user memory matching on **538 recordings and 7,028 windows from 7 participants**.
- Extended follow-up work through controlled cross-user transfer studies and a browser-based acquisition and video-review prototype for future full-meal data collection.

Neuromorphic Sensing: Spike Encoding and Edge Inference — Ongoing

First Author & Experimental Researcher — *Submitted*

- Implemented models and controlled comparisons across **six sensing tasks and four modalities**: wireless, inertial, electromyographic and tactile signals, using spiking neural networks (SNNs).
- Evaluated recognition accuracy, inference-pipeline latency and measured power-rail energy on **NVIDIA Jetson AGX Orin**, analyzing recognition and execution-cost trade-offs.

SNN-STEM: Aerial Object Detection (Ongoing): advancing a spiking-neural-network project for detecting ground objects in aerial imagery; preparing further evaluation toward a **planned CVPR 2027 submission**.

Research Experience (continued)

LADS: Lease-Aware Delivery Scheduling of Tool Results for Language Model Agents **2026**

First Author & Systems Developer *Submitted*

- Developed tool-result scheduling for concurrent language-model agents and a real-inference evaluation system; manuscript submitted to **WWW 2027**.
- Reduced mean complete-workflow latency by **44.6%** on controlled bursts (5 input seeds) and **42.4%** on Web-derived burst replay (3 input seeds), versus ReAct with first-in, first-out delivery, using the same model and agent policy.

3D Acoustic Field Reconstruction and Adaptive Acoustic Modeling **May 2026–Present**

Acoustic Modeling & Simulation *In preparation*

- Developed simulation-based evaluation of acoustic field reconstruction under sparse, imperfect measurements, covering object-response reuse, receiver-position calibration and room-response prediction; prepared protocols for future real-room measurements.

Related computer vision course project: Team Leader, four-person Object-Level 3D Gaussian Splatting project (Spring 2026); built reconstruction, segmentation and editing pipeline, registering 213/213 frames with 0.71-pixel reprojection error.

RydbergTrack (Spring semester 2026; Team Leader, three-person project): built a reproducible MATLAB pipeline for 150 million samples; separated 3 static and 12 motion recordings within the project dataset.

Selected Engineering Project

Difftest Lab (2026; Developer): built a Visual Studio Code extension integrating Vivado simulation, synthesis and bitstream workflows with AI-assisted lab tutoring; implemented authenticated service access, run-log analysis and account-scoped conversation history.

Technical Skills

Programming: Python, C/C++, MATLAB, Java, JavaScript, Verilog
ML & Scientific Computing: PyTorch, scikit-learn, NumPy, SciPy; spiking neural networks, signal processing, numerical optimization
Systems & Tools: CUDA, COLMAP, Vivado, Node.js, Git, Linux, LaTeX; inference scheduling, reproducible evaluation, automated testing
Languages: Chinese; English — Duolingo English Test: **120/160**, minimum subscore **115** (Oct 2026); CET-6: 570/710

Selected Honors & Awards

2025 **National First Prize**, Contemporary Undergraduate Mathematical Contest in Modeling (CUMCM)
2025 **Silver Medal (Rank 4)**, International Collegiate Programming Contest (ICPC)
2025 **Silver Medal**, China Collegiate Programming Contest (CCPC)
2025 **Gold Medal**, Guangdong Collegiate Programming Contest
2026 **International First Prize (1st Place)**, Application Development Division Finals, 1st Hong Kong International AIGC Cultural Digital Content Creation Competition
2025 Provincial First Prize, 16th Lanqiao Cup, Guangdong; C/C++ Programming, University Group A
2025/26 SUSTech **Outstanding Student Leader (2025)**; **Exemplary Student Leader (2026)**
2025/26 SUSTech University Scholarship (2025 and 2026); Zhiren College Motto Scholarship “Rixin” (2025)
2026 Undergraduate Talent Development Excellence Program Grant (2024 Cohort; CNY 6,000)
2025/26 SUSTech Outstanding Communist Youth League Cadre
2026 Second Prize, CCF Service Computing Innovation Competition / Sangfor CoStrict AI-Native Innovation Competition; *GeoAgent* (team project)

Earlier informatics honors: Provincial Rank 9, National Olympiad in Informatics (NOI) Joint Provincial Selection; First Prizes in the NOI Spring Test and CCF CSP-S (senior-level certification).

Leadership & Service

President, Student Union | Chair, Student Development Committee: lead organizational planning, team coordination, recruitment, student activities, member development, leadership handovers, and operating procedures.

Head, Zhiren College Peer Mentor Team: lead 15 mentors serving 231 incoming students across 5 classes and outreach covering 25 provinces; organize onboarding, orientation, and ongoing support.
Collective honors: SUSTech Outstanding Student Union; First Prize, Zhiren College Outstanding Student Organization (2025–2026).
Volunteer service: 87.17 verified hours (September 2026), including campus events and accessibility initiatives.
Other roles: Turing Class President; 3D Manufacturing Club Vice President; competitive programming, supercomputing, rowing, emcee, and exhibition hall docent teams.
