

# YUXUAN HOU

Shenzhen, China | 12413104@mail.sustech.edu.cn | tsawke.github.io

## Education

### Southern University of Science and Technology (SUSTech)

Expected Jun 2028

*B.Eng. in Computer Science and Technology — Turing Class (Honors Program)*

Shenzhen, China

**Academic-year GPA: 3.86/4.00** | **Class President**, 2024 CSE Turing Class

**Honors Coursework:** Discrete Mathematics; Data Structures and Algorithm Analysis; Algorithm Design and Analysis; Principles of Database Systems; Artificial Intelligence.

**Other Completed Coursework:** Computer Organization; Computer Vision; Natural Language Processing; Digital Logic; Introduction to Mathematical Logic; Introduction to Computer Programming; Computational Ethics; Group Projects I.

**In Progress:** Operating Systems (Honors); Compiler Principles; Computer Networks; Advanced Computer Programming; Probability and Statistics for Engineering.

## Research Affiliation

**Lab:** Advanced Intelligent Mobile Systems (AIMS) Lab, SUSTech

**Advisor:** Jin Zhang, Associate Professor, Department of Computer Science and Engineering

## Accepted Publication

Yuxuan Hou, Jiao Li, Linshan Jiang, and Jin Zhang. *Oto-Meal: Earable Sensing with PPG and IMU for Personalized Meal Awareness*.

**WellComp 2026 (UbiComp/ISWC 2026 Workshop)** — Computing for Well-being.

Accepted; forthcoming in *UbiComp Companion '26*. DOI: 10.1145/3798063.3841767. arXiv:2608.16678.

Additional manuscripts are in preparation.

## Research Experience

### Oto-Meal: Personalized Earable Sensing

Sep 2025–Present

*Project Lead & Primary Developer*

*Wearable sensing*

**Project Lead** — 2026 National Undergraduate Innovation and Entrepreneurship Training Program (**National Level**; CNY 25,000)

**Project Lead** — 2026 SUSTech “Climbing Program” Project (CNY 15,000; completed)

- Built an audio- and image-free photoplethysmography (PPG) and inertial measurement unit (IMU) pipeline with two-stage behavior recognition and user-conditioned calibration; evaluated **538 recordings and 7,028 windows from 7 participants**.
- Achieved  **$80.38 \pm 0.84\%$**  five-class event accuracy with 20% labeled target-user calibration under the paper’s window-split protocol; led the accepted first-author manuscript and continue follow-up modeling and evaluation.

### Neuromorphic Sensing: Event Encoding for Wireless Signals

Ongoing

*Method Development & Experimental Evaluation*

*In preparation*

- Develop spiking neural network (SNN) encoders, including frequency-budgeted events, membrane-state feedback, and Haar-based gated encoding; build comparisons across **nine datasets**, with component ablations and protocol-specific accuracy and computation analysis.

### ReActLens: State-Aware Tool-Result Delivery

Ongoing

*Systems Prototyping & Evaluation*

*In preparation*

- Prototype tool-result delivery coordinated with cache residency and inference scheduling for resource-constrained language-model agents; evaluate public tool-use traces with a real inference engine, including a **112-run, 1,792-request** controlled study of recovery latency.

## Research Experience (continued)

### 3D Acoustic Field Reconstruction and Adaptive Acoustic Modeling

May 2026–Present

#### Acoustic Modeling & Simulation

In preparation

- Progressed from DiffRIR reproduction to compact object-response transfer for scene editing; developed simulation comparisons and repeated-edit cost evaluation, using **26.67% fewer measurement records** than the specified recalibration baseline over four edits, with lower mean change error in that setting.
- Related computer vision project:** Team Leader, four-person Object-Level 3D Gaussian Splatting project (Spring 2026); built reconstruction, segmentation and editing pipeline, registering 213/213 frames with 0.71-pixel reprojection error.
- InterveneCompose** (ongoing; manuscript in preparation): structural property testing of multi-label functions, query-complexity analysis and exact computational verification.
- Q-CalTrack** (ongoing; manuscript in preparation): phase-based motion recovery with sparse anchors, ambiguity diagnosis and conditional uncertainty analysis.
- CUMCM Research** (ongoing; manuscript in preparation): search-policy learning from partial rollout supervision, teacher-distribution design and matched hyperparameter-search experiments.

## Selected Engineering Projects

**RydborgTrack** (May–Jun 2026; Team Leader, three-person project): built a reproducible MATLAB pipeline for 150 million samples; separated 3 static and 12 motion recordings within the project dataset.

## Technical Skills

- Programming:** Python, C/C++, MATLAB, Java, Verilog
- ML & Scientific Computing:** PyTorch, scikit-learn, NumPy, SciPy; spiking neural networks, signal processing, numerical optimization
- Systems & Tools:** CUDA, COLMAP, Vivado, Git, Linux, LaTeX; inference scheduling, reproducible evaluation, automated testing

## Selected Honors & Awards

- |         |                                                                                                                                                                        |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025    | <b>National First Prize</b> , Contemporary Undergraduate Mathematical Contest in Modeling (CUMCM)                                                                      |
| 2025    | <b>Silver Medal (Rank 4)</b> , International Collegiate Programming Contest (ICPC)                                                                                     |
| 2025    | <b>Silver Medal</b> , China Collegiate Programming Contest (CCPC)                                                                                                      |
| 2025    | <b>Gold Medal</b> , Guangdong Collegiate Programming Contest                                                                                                           |
| 2026    | <b>International First Prize (1st Place)</b> , Application Development Division Finals, 1st Hong Kong International AIGC Cultural Digital Content Creation Competition |
| 2025    | Provincial First Prize, 16th Lanqiao Cup, Guangdong; C/C++ Programming, University Group A                                                                             |
| 2024/25 | SUSTech University Scholarship; Zhiren College Motto Scholarship “Rixin”; SUSTech Outstanding Student Leader                                                           |
| 2024    | Undergraduate Talent Development Excellence Program Grant (2024 Cohort; CNY 6,000)                                                                                     |
| 2025/26 | SUSTech Outstanding Communist Youth League Cadre                                                                                                                       |
| 2026    | Second Prize, CCF Service Computing Innovation Competition / Sangfor CoStrict AI-Native Innovation Competition; <i>GeoAgent</i> (team project)                         |
- Earlier informatics honors:** Provincial Rank 9, National Olympiad in Informatics (NOI) Joint Provincial Selection; First Prizes in the NOI Spring Test and CCF CSP-S (senior-level certification).

## Leadership & Service

- President, Student Union** | **Chair, Student Development Committee:** lead organizational planning, team coordination, recruitment, student activities, member development, leadership handovers, and operating procedures.
- Head, Zhiren College Peer Mentor Team:** lead 15 mentors serving 231 incoming students across 5 classes and outreach covering 25 provinces; organize onboarding, orientation, and ongoing support.
- Collective honors:** SUSTech Outstanding Student Union; First Prize, Zhiren College Outstanding Student Organization (2025–2026).
- Volunteer service:** **87.17 verified hours**, including campus events and accessibility initiatives.
- Other roles:** Turing Class President; 3D Manufacturing Club Vice President; competitive programming, supercomputing, rowing, emcee, and exhibition hall docent teams.
